

Protective Dividers - High grade protection for fruit

Dufaylite dividers are designed to provide pre-assembled compartments to separate and protect individual fruits from bruising. They can be used in cartons or trays and are available in a variety of different grades, cell sizes and formats.

Dufaylite food grade dividers are FDA approved for direct contact with food products such as fruit, vegetables and confectionery, and are used by leading fresh produce growers and supermarket suppliers. Their unique cellular design ensures the dividers open quickly and stay open to streamline the packaging process.

Dufaylite dividers are delivered shrinkwrapped in handy packs and occupy minimal storage space. One pallet load holds sufficient dividers to pack 45 tonnes of apples.

Dufaylite Protective Divider Benefits:

- Cost effective
- Ready assembled compartments
- Reliable protection for delicate fruit
- FDA approved
- Displays fresh produce to best advantage
- Holds items securely to prevent bruising
- Quick and easy to use
- Minimum storage space required
- Made from recycled paper and 100% recyclable
