

## Protective Products

### Masks, Respirators & Clothing

#### FOCUS 6000

The top model in our range of goggles! Fitted with moulded polycarbonate lens, scratch-resistant and anti-mist. Perfect fit, even for spectacle wearers. Extremely comfortable because of the materials used.

UAP Product Code - NORTH 3

#### 5500 SERIES EN140

Low cost Twin Filter, Half Mask Respirator. The 5500 Series is the optimum re-usable/disposable respirator combining the wearer comfort and total serviceability of a re-usable with the economy and flexibility of a disposable. The 5500 series offers high levels of user acceptance achieved through the low profile ergonomic design of the elastomeric facepiece.

UAP Product Code - NORTH 5

#### N7500 CLASS 1 FILTERS EN141/143

The 7500 series of Filter Cartridges are designed to be used across the range of Class 1 respirators. Plastic bodied cartridges with a unique internal thread connection. Unique fit check kits are available to carry out negative pressure fit checks when using gas filters. Wide range of filters. Unique secure thread (internal).

UAP Product Code - NORTH 11

#### NITRILE LATEX GLOVES

North's Nitrile gloves offer an effective replacement for neoprene, natural rubber and vinyl unsupported gloves. North's blue Nitrile gloves have been accepted as the premium product in the range. Coupling those styles with the addition of green Nitrile, North offers two Nitrile glove ranges that equal or exceed the performance of other unsupported Nitrile gloves.

UAP Product Code - GLOV 22

#### FSN CHEMICAL SPLASH HOODS

The ultimate in Chemical protection for head, neck and shoulders which is designed for use with safety helmet. Features include a fully enclosed hood affording excellent all round visibility, anti-Mist Visor and yoke vent on apron front to help air circulation and minimise lens fogging, external PVC hook to ease cleaning operations.

UAP Product Code - NORTH 2
