

The 2000 Series

The 2000 series is designed and built to comply with future international safety standards. In addition, special focus has been put on operator comfort, safety and modern design.

With only few and very easily repairable wearing parts along with the very ergonomic design, the 2000 series will prove to be the model sprayer of the future.

The 2000 series is available in 15 litre and 20 litre versions.

The 2000 Series offers you:

- Chemical resistant shoulder pads for safety and comfort together with a waist belt to spread the load
- Ergonomic handle with storage facility for extra nozzles, filters and other accessories
- Large filler hole and deep strainer to prevent splash back
- 2 strainers/filters to clean impurities before nozzle outlet
- High resistance GRP Lance adaptable for all types of nozzles
- Ergonomic, robust and lightweight design
- Left/right hand operation
- Wide range of accessories
- All parts easily repairable without the use of tools

Nomix 700 Weed System

- the faster, simpler, safer way to control weeds

When you need to wipe out weeds, the Nomix 700 Weed System is the answer. It's unique combination of advanced Nomix herbicides and the Nomix lance creates an easy to use system that is faster, simpler and safer than conventional knapsack systems.

Tough on weeds - Nomix herbicides produce heavy droplets which fall where you want them and which won't drift. Because the unique Nomix formulation sticks to the leaves and quickly translocates down to the root, it takes only a few droplets to control most weeds.

- No mixing or measuring of chemicals
- Heavy droplets fall where you want them
- Translocates through the plant to the roots
- Spray widths from 15cm to 100cm
- Environmentally safer formula - maximum effectiveness without waste
- One Nomix 700 tank covers up to 1,000m²
- Safer for you, safer for the environment

THE NOMIX HERBICIDE TO MEET YOUR NEEDS

All Nomix herbicides produce heavy droplets that fall where you want them and adhere to plants. There is a choice of a non-residual or a residual formulation to meet different weed control needs.

	HILITE	TOUCHE
Herbicide	Total non-residual	Total
Ideal for	Paved areas, around shrubs, alongside buildings, fencelines	
One Nomix 700 tank	1,000m ²	750m ²
One Nomix Big 5 refill	5,000m ²	3,750m ²

THE NOMIX BIG 5 REFILL PACK

Save money and help the environment by refilling your existing Nomix 700 tank from the easy-to-use Nomix Big 5 refill pack. One Big 5 refill will refill your 750ml tank 5 times and there are no spills and no mess thanks to the unique Nomix self-sealing valves. This means less waste and more safety for you.

Save time and money with the Nomix 700 Weed System

- No mixing - no measuring - instantly ready to spray
- Light and simple to use - no heavy knapsack - you can see where you spray
- Sprays where you want with minimum waste
- Virtually no drift, tests prove up to 40 times less drift than conventional methods
- Quick and easy cleaning with Nomix Cleaner
- Easy refilling with self-sealing valves
